

***New Housing Options Available for NEXEDGE®
NX-200/300 & P25 TK-5220/5320 Portables***

New housing options in high visibility yellow and orange are now available for NEXEDGE® NX-200/300 and P25 TK-5220/5320 portable radios.

Higher visibility enhances personnel safety, helps locate misplaced portables and differentiates customer user groups from the other agencies or departments. These new housing options are perfect for fire agencies, EMS, US Armed Forces, utilities and other hazardous duty customers.

Housing options may be ordered for factory installation or as a field retrofit. Please see product details (below) for ordering information and delivery. Orders are currently being accepted.
